

How to Give your Home a Fresh Start

The FRESH AIR CLEAN HOME
advantage of central vacuums

HVS-1008

COVER

“I always wanted a central vacuum but I never realized I could have one in my home.”

“It’s easy and affordable... and I can install it in about a day.”

INSIDE SPREAD

“I always wanted a central vacuum but I never realized I could have one in my home.”

You don't have to build a home to get built-in convenience and good health

“Central vacuum systems are among the best indoor air quality investments for your home.”

–BUILDER Magazine

“The healthiest type of vacuum to operate is a central vacuum that is vented outdoors.”

–The Healthy Home Institute

“Allergy sufferers’ symptoms can be improved up to 61% when using a central vacuum system.”

–University of California Davis School of Medicine

“When I buy a new home I want a central vacuum.”

We hear it time and time again. But any home can have the built-in convenience and Indoor Air Quality (IAQ) advantages of a central vacuum. Central vacs remove 100% of vacuumed dirt, dust and allergens from your home while doing a better deep cleaning job. And VACUFLO® central vacs with Cyclonic Filtration Technology® (CFT™) offer more sustained cleaning power.

VACUFLO Central Vacuums

- Provide up to 5x more suction and power than portable vacuums
- Remove 100% of vacuumed dirt and allergens
- Improve Indoor Air Quality (IAQ)
- Clean every interior surface
- Bring built-in convenience to cleaning
- Add to the resale value of a home

New or old, classic or contemporary, every home deserves a VACUFLO System, and every family deserves a cleaner, healthier, more convenient way to clean.

Contact your local VACUFLO dealer today or visit www.vacuflo.com to learn more about what a central vacuum can do for you.

Fresh Air. Clean Home. Central Vacuum.

Homes of any style, material or size can be retrofitted with a VACUFLO Central Vacuum System.

More Sustained Cleaning Power

VACUFLO features Cyclonic Filtration Technology® (CFT™), a unique dual filtration process that utilizes cyclonic separation for primary filtration and either an outdoor exhaust or pleated filter for secondary filtration. What does this mean to you? Unlike systems that rely on permanent cloth filters, the powerful performance of VACUFLO will not decrease as dirt accumulates.

Fresh Air

The VACUFLO® System transports dirt, debris and dust particles through a simple network of in-wall tubing connected to a remotely located power unit. 100% of vacuumed dirt, dust and allergens are removed from the home leaving behind cleaner, healthier indoor air.

Built-in Convenience

With VACUFLO, cleaning convenience is built right into the walls. Add the Hide-A-Hose Retractable Hose Management System and you have an unbeatable combination. The sustained vacuum power of a VACUFLO and convenience of Hide-A-Hose means you can spend less time cleaning and more time enjoying your home! From hard floors to carpets, walls, ceilings, upholstery and draperies, VACUFLO is the convenient way to clean!

Fast, Easy Installation

Our systems can easily be installed in any location where walls can be accessed from above or below. The complete installation typically takes less than one day with no structural modifications required.

Worry-Free Vacuuming For Life

VACUFLO Central Vacuums are backed with the best warranty in the business. Our Limited Lifetime Warranty covers ALL permanently installed components for as long as you own the home, making it the best vacuum value for the money.

Whole-House Cleaning

We offer a wide variety of cleaning kits, accessories and powerheads to tackle every kind of cleaning job, from hard flooring, carpets and rugs to walls, ceilings, draperies, upholstery and much more!

“Using central vacuum systems that are vented to the outdoors can significantly reduce dust mites, pollens, animal dander and other allergy causing agents from your home.” –U.S. EPA
